Mr. Craig,

Thank you for the quick review and approval of the work plan. We are mobilizing our crew to the site beginning Monday, and do plan on starting the sampling next week.

As we work through logistical matters in regard to getting both personnel and equipment/supplies to the site we are providing updates to Bill Bath as to the planned schedule moving forward. To keep the communication channels consistent as field work progresses we will plan on routing any questions and/or updates that we may have for the EPA and ODEQ through Bill if that is acceptable to you. If for any reason someone is unavailable please do not hesitate to contact me directly at any time.

Sincerely,

Lynden

Subject: Re: The Dalles SAP Work Plan

Mr. Peters,

EPA has completed review of the draft Sampling and Analysis Plan submitted on Sept 5, 2012, and EPA is approving the SAP as submitted. Although EPA does not approve Health and Safety Plans, we have reviewed the HASP for this field work, and it appears to meet generally accepted industrial hygiene practices for the identified contaminants.

It is our understanding that sampling has been scheduled to start on-site next week. EPA intends to be on-site for general oversight of the work for part of the week. I have already had preliminary discussions with Bill Bath at Lockheed and will continue to coordinate with him for field investigation and site access issues.

Let me know if you have any questions.

Regards,

Harry Craig

 Subject: The Dalles SAP Work Plan

Mr. Faulk, Craig, and Moore:

Attached is Work Plan – Sampling and Analysis Plan for Air Monitoring at the LMC Site located at The Dalles, Oregon. This work plan has been revised in accordance with comments received from the EPA on August 24th, and further revised based on phone conversations held between LMC and the USEPA.

This email will comprise the first of four emails that will include the plan and related appendices due to the large file size.

Thank you,

Lynden
